# INSPECTION MANAGER

State-of-the-art technology compares, corrects and tracks all inspection data.

- Update as soon as drivers report from the field, identify all inspection and violation mismatches
- Customize with your master lists of drivers and vehicles
- Automatically compare all reports daily to FMCSA records
- Challenge mismatches before they impact your safety record
- Attach related documents to vehicles and inspections (registration, inspection report from the field)
- Request a demo or call for more information: 503-688-5100 x103

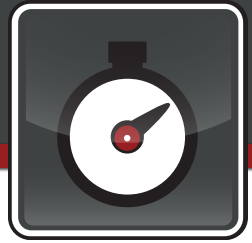

## RECOMMENDED UPGRADE

### *Crash Manager*

For the most comprehensive safety solution, add the Crash Manager to your plan. **Contact a Rep at 503-688-5100 x103**

# INTERVENTION MANAGER

It's like having your own on-site FMCSA auditor.

- Eliminate the distraction of guesswork—focus on the key data to know exactly how to allocate time and resources
- Automate hundreds of hours of manual processing—mimic FMCSA audit process
- Enables proactive responses to CSA—get ahead of the yellow triangle
- Intervention readiness means being prepared is your natural state
- Request a demo or call for more information: 503-688-5100 x103
